

A large olive ridley turtle is the central focus, resting on a wide, sandy beach. The turtle's shell is a mottled grey and brown, and its flippers are visible. A long, narrow trail of sand marks its path from the water's edge towards the foreground. In the background, the ocean waves are breaking, creating white foam. The sky is a pale, hazy blue. The overall scene is peaceful and natural.

# Acknowledgments

We are grateful to the following donors for their support of the SWOT Program in 2020–2021, including the publication of this volume of *SWOT Report*: Alben F. Bates & Clara G. Bates Foundation, Flip RSS, Marisa I. Hormel Trust, Moore Family Foundation, Offield Family Foundation, and Seiko Watch of America. We also offer a special thanks to Mark Swingle of the Virginia Aquarium and all the institutions that augmented our SWOT grants this year through the Association of Zoos and Aquariums Saving Animals from Extinction (AZA-SAFE) program, including Gladys Porter Zoo, North Carolina Aquariums, OdySea Aquarium, South Carolina Aquarium, Texas State Aquarium, The Aquarium at Moody Gardens, The Maritime Aquarium at Norwalk, and Virginia Aquarium & Marine Science Center. Thank you for making our work possible.
